

# FEES

# PERMITS INFORMATION

2017

A fee is collected to cover the cost of processing applications for Marine Parks permissions. The fees reflect the amount of time spent administering and/or assessing the request for permission, so vary according to the complexity of the request.

The fee is payable prior to assessing the application.

If you are only operating vessels or aircraft and have not applied to operate a structure or facility in the Marine Parks, the fee will be based on the maximum passenger capacity of all vessels or aircraft covered by the application.

Exactly which fee applies can only be finalised when you submit a firm application.

Further information on fees is provided in our [Application Guidelines](#).
